**Variety of uses...** Hospital, Respiratory, Critical Care, and Homecare
Tender Grip® - Infant and Newborn

Tender Grip is easy to apply, allows the skin to breathe, holds securely and leaves the fixed object clean and without messy residues.

- Time Saving
- Cost Effective
- Secures cannula and/or tubing to skin

The Salter Labs Tender Grip consists of an adhesive backing of microporous tape (tinted base) which is applied to the patient’s skin. On top of the tape base is a fixation straps designed to position and secure cannula or other tubing in place.

Tender Grip is easy to apply, allows the skin to breathe, holds securely and leaves the fixed object clean and without messy residues.

Tender Grip®... Adheres and secures where other products fail!
