Salter-Style®
Dual Oral/Nasal ETCO₂
Sampling Cannulas
Permits ETCO₂ sampling during spontaneous breathing.

Features
- Unique design has curved, tapered nasal prongs and adjustable oral sampling lines
- Face-piece anatomically curved to fit upper lip
- Soft, lightweight, clear material
- Oral/Nasal end tidal CO₂ sampling
- Adult and Pediatric configurations

Benefits
- Greater versatility for oral and/or nasal sampling
- More comfortable fit. No irritating flap or ridge
- Doesn’t interfere with patient observation
- Delivers accurate, quantitative reading
- Maximum versatility
