Salter-Style®

**ETCO₂ Sampling Cannulas with Simultaneous Oxygen Delivery**

Oxygen delivery and ETCO₂ sampling during spontaneous breathing

**Features**

- Unique “Piggyback” design with curved, tapered nasal prongs
- Simultaneous oxygen delivery and ETCO₂ sampling either oral/nasal or nasal only configurations
- Face piece is anatomically curved to fit upper lip
- Soft, lightweight, clear material
- Full range of size configurations

**Benefits**

- Better anatomical fit for long-term use
- Maximum versatility. Delivers accurate, quantitative reading while allowing oxygen or gaseous analgesia delivery
- More comfortable fit. No irritating flap or ridge
- Doesn’t interfere with patient observation
- Available for adult and pediatric usage
Salter-Style® ETCO2 Sampling Cannula with simultaneous oxygen delivery

Multiple function “piggyback” design, another Salter innovation.
